

A Brief History of Diving in the Keys

Ocean Life Series

Surrounded by unique coral reef and seagrass ecosystems, scuba diving and snorkeling is an integral part of both the tradition and future of the Florida Keys. The importance of diving to the economy of the Keys is evident from the scores of dive shops lining Overseas Highway. Thomas Lockyear, Director of the History of Diving Museum in Islamorada, will discuss the special role South Florida and the Keys have played in the international story of underwater exploration and humanity's attempts to understand and venture under the sea.

For more information, contact Linda Kaplan at linda@fklcc.org or (305) 396-7000, or visit seas.fiu.edu.
